

HERBED FOCACCIA

The marriage of thyme, marjoram and sage creates a delicate and subtle flavor. This soft and moist artisan bread is sheltered beneath a crisp amber crust. The porous texture of **Herbed Focaccia** is perfect for chasing the last drips of sauces and absorbing drops of olive oil.

TRIBECA OVEN

It's All About The Bread.

Bread is our passion. Bread is our obsession. We honor the old-world tradition of artisan bakers to ensure that all of our breads are made using centuries-old techniques. We hand-shape and score all of our loaves. We bake in small batches—which gives us greater control over the quality, texture and flavor of our breads. We also give our dough time, time for a leisurely rise, time to rest, and time to develop character.

We use only natural ingredients, no artificial preservatives. We're committed to the craft of quality bread baking and to delivering the finest artisan breads available. And with our variety of offerings, we make sure there's a Tribeca Oven bread that complements every meal.
